

Update from the Directory Committee

Michael
Directory Committee Chair

Hi All,

I feel that I owe the Membership an explanation about the delay in our publication of the 2025 Directory.

While the creation of the booklet can be done in a few days, I underestimated the challenge of receiving the information for each unit and committee, etc. For the next Directory (2026), we'll begin earlier, and modify our communications in order to be more clear about the importance of participation.

Where we're at now:

The 2025 Directory is done and ready to go to print. Yay! In accordance with bylaw 5.02.1, we've sent a PDF copy of the booklet to the office for them to make sure that the correlations of our residents and their units are correct. We'll be going to print as soon as they have completed this task.

Thanks for your patience.
